

A didactic course in foundational forensic nursing must be completed before participating in the 16-hour Adult/Adolescent SANE/SAFE Clinical Skills Lab. Completion of one of these foundational didactic courses, along with RN or advanced provider licensure, satisfies the prerequisite requirement for our 16-hour Adult/Adolescent SANE/SAFE Clinical Skills Lab.

Some options that meet the foundational didactic training requirement:

- Academy of Forensic Nursing (AFN) – Offers forensic nursing education and training programs similar to those historically provided by IAFN. To register, visit <https://www.goafn.org/forensic-nursing-collection>
- Sigma Sexual Assault Forensic Examiner Program (Online) – 44-contact-hour SAFE/SANE foundation course aligned with IAFN guidelines.
- DC Forensic Nurse Examiners 40-Hour Online SANE Training – Self-paced 40-hour Adult/Adolescent SANE didactic course that includes continuing education credit.

Additional information about these didactic trainings can be found by emailing fneidaho@gmail.com.
