

Improving Brain Health

Are you aware of the modifiable risk factors associated with dementia?

By comprehensively and vigorously addressing the modifiable risk factors listed below, you CAN reduce the risk of dementia.

THE SAINT ALPHONSUS MEMORY CENTER

The mission of the Saint Alphonsus Memory Center is to help our community achieve and maintain the best possible brain function through a compassionate, collaborative, and multi-disciplinary approach to dementia prevention, treatment and education.

If you or a loved one are experiencing signs of memory loss and would like to schedule a consultation, or you're a healthcare provider and would like more information about our services, **please call our clinic at (208) 302-5400 or scan the QR Code!**
